LIGHT UP YOUR SPACE

2020 collection

WHEN THE LIGHT SOURCE IS AT THE CENTER OF THE PROJECT

Interia presents a range of innovative products.
The new collection traces the product tradition of Interia but in evolutionary terms.
They are characterized by a subtle and timeless beauty, expression of a well defined aesthetic research.
The new products represent a journey into the world of lighting in soft shapes, innovative materials and a color palette characterized by dense and natural finishes.
Great attention to the light bulb, which reinterpreted in creative form acquires centrality in the project.
